

Offer Creation

How to Build an Offer of Value: A Step-by-Step Guide

▼ 1. Discover What People Value (Dream Customer Codes)

- **Ask Questions:** Understand your audience's pain points and desires. Focus on areas like health, wealth, and relationships.
- **Past Perceived Voids:** People value things they feel they've been missing (e.g., financial freedom, better health, stronger relationships).
- **Future Perceived Visions:** People are motivated by what they want to achieve in the future (e.g., becoming a millionaire, improving their lifestyle).

▼ 2. Create a Transformational Solution (One True Offer)

- **Define the Transformation:**

- Clearly articulate the **before and after** state your offer provides.
- Example: "I help people go from weak and sickly to strong and vital" or "I show people how to leave the 9-to-5 rat race and create financial freedom."
- **Make It Measurable:**
 - Ensure the results are tangible and quantifiable (e.g., "Go from 50,000 to 100,000/year").
- **Make It Desirable:**
 - Focus on outcomes your audience already wants, not what you think they should want.
- **Make It Believable:**
 - Be congruent and confident in your ability to deliver the transformation. Your energy and authenticity matter.

▼ 2.1 Make a Freebie (Lighthouse Method)

- **Create a Freebie**

Now you have defined your signature offer, you'll be reverse engineering a free offer in order to magnetize leads and their email addresses, and move them towards your offer.

- **Scale Up:**
 - Move to higher-priced offers as you build credibility (e.g., 20,000mastermindsor20,000mastermindsor350,000/year coaching programs).
